

VIVREAU Sodamaster 50

Efficient all-rounder with BRITA Hygiene Solution

The upgraded BRITA VIVREAU Sodamaster 50 is the ideal high-quality solution for medium consumption demands, especially in corporate and healthcare environments. It provides chilled still or sparkling (optional medium or classic) or unchilled still water.

All water dispensers of the product series BRITA VIVREAU Sodamaster are equipped with the Thermal Germ Barrier to avoid retrograde contamination. Equipped with the effective three-zone-protection **BRITA Hygiene Solution** - including the Thermal Germ Barrier - BRITA VIVREAU Sodamaster 50 provides an excellent solution for special hygiene demands.

Opt for clean.
Opt for green.

At BRITA we have always cared about the environment. Our philosophy is to provide the best quality water from the most local source, eliminating the need for costly and polluting transportation and packaging. The installation of a BRITA water dispenser has an immediate impact on your ecological footprint.

The benefits to you

- Cooling capacity tailored for medium consumption demands
- Proven cost savings and environmental benefits versus bottled water
- High-quality materials (stainless steel)
- Variety of installation options
- Thermal Germ Barrier as standard
- Effective three-zone-protection **BRITA Hygiene Solution** optional
- Drip tray filling level notice or optional connection to the waste water
- Programmable portion control
- Adjustable water temperature
- Customisation of the base cabinet possible

Safety and hygiene concept

The effective **BRITA Hygiene Solution** is a special hygienic concept, dedicated for highly sensitive areas, such as hospitals. It consists of three important elements:

- The inlet filter (BRITA CLARITY Protect) with a 0.15 µm membrane retains bacteria from the tap water.
- The BRITA CLARITY Safe X3 filter retains any potentially remaining bacteria and cysts before the water is dispensed.
- The Thermal Germ Barrier protects from retrograde contamination.

This special three-zone-protection provides the safety requirements especially needed in sensitive areas. This is proven by numerous long-term studies of hygiene institutions.

Corresponding accessories

With our accessories you make life even easier and the water supply even smoother.

Freshly dispensed, filtered BRITA water from your own bottle.

The BRITA Wave bottle is the perfect fit for your BRITA VIVREAU Sodamaster. Wave is available in glass but also in fracture resistant high-quality BPA-free plastic and therefore the ideal everyday accompaniment for employees and patients. Personalized with your logo on the bottle and/or cap, this high-quality reusable bottle can even contribute to raise brand awareness.

Ask your sales representative for details.
